

Call For Posters

IEEE Computational Systems Bioinformatics Conference

Stanford, CA • August 16–19, 2004

You are invited to submit a poster to the 2004 IEEE Computational Systems Bioinformatics Conference (CSB2004). Poster presentations describing original research in the development or application of advanced computational methods for biological problems are welcome.

Topics of interest include (but are not limited to):

- Microarray Analysis
- High Content Analysis
- RNAi Analysis
- Pathways, Networks, Systems Biology
- Biomedical Research
- Visualization
- Protein Structure and Analysis
- Data Mining
- Pattern Recognition
- Mathematical and quantitative models of cellular and multicellular systems
- Synthetic Biological Systems
- Sequence Alignment
- Evolution and Phylogenetics
- Functional Genomics
- High Performance Computing
- Comparative Genomics
- SNPs and Haplotyping
- Promoter Analysis and Discovery

- Space is limited to 100 posters, and we expect to receive more abstracts than we can accept.
- The deadline for submission is **May 17, 2004**.
- Presenters of accepted posters will be notified by **May 24, 2004**.
- At least one of the poster authors must be present at the conference.
- The size of the poster space is: 36 x 48 inches (91 x 122 cm.). Posters will be affixed to the poster board using pushpins. No electrical support or internet connections are available in the poster session area.
- Accepted posters will be published in the IEEE conference proceedings. Proceedings authors are entitled to two pages free of charge and may purchase additional or color pages for a fee payable to IEEE Publications.
- The Best Poster will be selected by the Poster Committee and announced at the awards ceremony. The CSB2003 winner is available [here](#).

Guidelines for Abstracts

Abstracts are limited to 250 words or less. Each abstract should have a short, specific title. The body should concisely state the study's objective, if not clear from the title, its methods, results, and conclusions. It is not satisfactory to say, "the results will be discussed." Abbreviations should be spelled out in full at first mention, followed by the abbreviation in parentheses, except for common terms such as DNA. Authors are strongly encouraged to adhere to these guidelines, as they will be used in evaluating the abstracts.

Important Dates:

Submission deadline: May 17, 2004

Poster acceptance deadline: May 24, 2004

Proceedings deadline: June 7, 2004
