Program At-a-Glance for COMPSAC 2006

http://www.compsac.org

Beginning 2006, COMPSAC is designated as the IEEE Computer Society Signature Conference on Software Technology and Applications. The technical theme for the 30th conference is Highly Dependable and Secure Software. In addition to 84 paper presentations selected via a highly competitive peer review process, the technical program also consists of:

- 5 CoSTEP Keynotes
- 6 Panels, covering the state of the art in Just Enough Requirements Traceability, E-security, Granular Computing and Web Intelligence, Global software engineering projects and how to prepare our students, Trustworthy computing, Software Engineering future from perspective of USA, Europe, India and Asia, and the research community, and Ethics
- 5 Workshops, including Workshop on Software Cybernetics (IWSC’06), Workshop on Quality Assurance and Testing Web-Based Applications (QATWBA’06), Security, Privacy, and Trust for Pervasive Applications (SPTPA 2006), Workshop on Testing and Quality Assurance for Component-Based Systems (TQACBS 2006), and Workshop on Engineering Semantic Agent Systems (EASA 2006),
- Doctoral Symposium
- Fast Abstracts
