2010 IEEE International Conference on Services Computing

SCC 2010

Message from the General Chairs and Program Chairs ........................................ XXX
Organizing Committee .................................................................................................. XXX
Technical Program Committee ................................................................................... XXX
IEEE Computer Society Technical Committee on Services Computing ............... XXX

Research Track

Research Track 1 – Choreography of Business Process Management
Session Chair:

  Enrique Martinez, Gregorio Díaz, Piquer Cambronero, and Gerardo Schneider
  Wei Song, Xiaoxing Ma, S. C. Cheung, Hao Hu, and Jian Lv
Process Trace Identification From Unstructured Execution Logs (SCC2010-2003) .................................................. XXX
  Nirmit Desai, Anuradha Bhamidipaty, Bhuvan Sharma, Virendra K. Varshneya, Mitesh Vasa, and Shailabh Nagar

Research Track 2 - Modeling and Abstraction of Services Process
Session Chair:

Dynamic Service Invocation Control in Service Composition Environments (SCC2010-2004) ........................................ XXX
  Donghui Lin, Yohei Murakami, and Masahiro Tanaka
BPEL Remote Objects: Integrating BPEL Processes into Object-Oriented Applications (SCC2010-2005) ........... XXX
  Marvin Ferber, Thomas Rauber, and Sascha Hunold
Co-Taverna: A Tool Supporting Collaborative Scientific Workflows (SCC2010-2006) ........................................... XXX
  Jia Zhang

Research Session 3 – Business Oriented and Enabled SOA
Session Chair:

Business Driven Consolidation of SOA Implementations (SCC2010-2007) ....................................................... XXX
  Biplav Srivastava and Pietro Mazzoleni
Detection of Semantically Equivalent Fragments for Business Process Model Change Management (SCC2010-2008) XXX
  Christian Gerth, Markus Luckey, Jochen Küster, and Gregor Engels
A Novel Approach to Improving the Efficiency of Storing and Accessing Small Files on Hadoop: a Case Study by PowerPoint Files (SCC2010-2009) .......................................................... XXX
Bo Dong, Jie Qiu, Qinghua Zheng, Xiao Zhong, Jingwei Li, and Ying Li

Research Session 4 – Cloud Services
Session Chair:

A Formal Service Contract Model for Accountable SaaS and Cloud Services (SCC2010-2010) .................. XXX
Joe Zou, Yan Wang, and Kwei-Jay Lin
Accountability as a Service for the Cloud (SCC2010-2011) ................................................................. XXX
Jinhui Yao, Shiping Chen, Chen Wang, David Levy, and John Zic
Graph-based Cloud Service Placement (SCC2010-2012) ........................................................................ XXX
Anca Sailer, Michael Head, Andrzej Kochut, and Hidayatullah Shaikh

Research Session 5 – QoS and Services Composition
Session Chair:

Metaheuristic Optimization of Large-Scale QoS-Aware Service Compositions (SCC2010-2013) .................. XXX
Florian Rosenberg, Max Benjamin Mueller, Philipp Leitner, Anton Michlmayr, Athman Bouguettaya, and Schahram Dustdar
Xi-Calculus: A Calculus for Service Interactions (SCC2010-2014) .......................................................... XXX
Vineet Rajani, Arun Kumar, and Dharanipragada Janakiram
A Service-Oriented Framework for GNU Octave-Based Performance Prediction (SCC2010-2015) ............. XXX
George Kousiouris, Dimosthenis Kyriazis, Kleopatra Konstanteli, Spyridon Gogouvitis, Gregory Katsaros, and Theodora Varvarigou

Research Session 6 - QoS Selection and Matchmaking
Session Chair:

QoS Analysis and Service Selection for Composite Services (SCC2010-2016) ........................................... XXX
Huiyuan Zheng, Jian Yang, and Weiliang Zhao
A Heuristic Algorithm for Trust-Oriented Service Provider Selection in Complex Social Networks (SCC2010-2017) XXX
Guanfeng Liu, Yan Wang, Mehmet Orgun, and Ee-peng Lim
An information model for the provisioning of network connections enabling customer-specific End-to-End QoS guarantees (SCC2010-2018) ................................................................. XXX
Mark Yampolskiy, Wolfgang Hommel, Patricia Marcu, and Matthias Hamm

Research Session 7 – Design and Modeling of SOA
Session Chair:

Michael Menzel and Christoph Meinel
Service Supervision for Service-oriented Collective Intelligence (SCC2010-2020) ..................................... XXX
Masahiro Tanaka, Yohei Murakami, Donghui Lin, and Toru Ishida

Research Session 8 – Semantic Web Services
Session Chair:

Meta-Modeling of Semantic Web Services (SCC2010-2021) ................................................................. XXX
Roberto De Virgilio
Improve Service Interface Adaptation Using Sub-ontology Extraction (SCC2010-2022) .............................................. XXX
Lu Jin, Wu Jian, Jianwei Yin, Li Ying, and Deng ShuGuang
Distributed Storage and Querying Techniques for a Semantic Web of Scientific Workflow Provenance (SCC2010-2023) .......................................................... XXX
John Abraham, Pearl Brazier, Artem Chebotko, Jaime Navarro, and Anthony Piazza

Research Session 9 – Service Discovery and Delivery
Session Chair:

Discovering Shared Services from Cross-Organizational Software Specifications (SCC2010-2024) .................... XXX
Alexander Yale-Loehr, Ian Schlesinger, Aubrey Rembert, and M. Brian Blake
Analyzing Communities vs. Single Agent-based Web Services: Trust Perspectives (SCC2010-2025) ................. XXX
Babak Khosravifar, Jamal Bentahar, Ahmad Moazin, Zakaria Maamar, and Philippe Thiran
A Service Packaging Platform for Delivering Services (SCC2010-2026) ................................................................. XXX
Muhammad Adeel Talib, Alan Colman, Jun Han, Justin King, and Malinda Kapuruge

Research Session 10 - Service Composition, Coordination and Management
Session Chair:

A Value-Driven Approach for the Determination of Global Optimization Objective of Service Composition (SCC2010-2027) ........................................................................................................... XXX
Zhongjie Wang, Xiaofei Xu, Dianhui Chu, and Chao Ma
Applying Bargaining Game Theory to Web Services Negotiation (SCC2010-2028) ......................................................... XXX
Xianrong Zheng, Patrick Martin, Wendy Powley, and Kathryn Brohman
A Continuous Long Running Batch Orchestration Model for Workflow Instance Migration (SCC2010-2029) ... XXX
David Frank, Liana Fong, and Linh Lam

Application and Industry Track

Application & Industry Session 1 – Services Composition Methodology
Session Chair:

Describing and Verifying Web Service Composition using TLA Reasoning (SCC2010-2030) .............................. XXX
Hongbing Wang, Qianzhao Zhou, and Yanqi Shi
Dynamic Composition of Services in Sensor Networks (SCC2010-2031) .............................................................. XXX
Sahin Geyik, Boleslaw Szymanski, Petros Zerfos, and Dinesh Verma
Discovering Business Process Model from Unstructured Activity Logs (SCC2010-2032) ........................................... XXX
Rahul Kumar, Chiranjiv Bhattacharyya, and Virendra K Varshneya

Application & Industry Session 2 – Services Selection and Matchmaking
Session Chair:

Utilizing the Waiting-time Criterion for Selecting Services in a Composition Scenario (SCC2010-2033) .......... XXX
Abhishek Srivastava and Paul Sorenson
ViPen: A Model Supporting Knowledge Provenance for Exploratory Service Composition (SCC2010-2034) ... XXX
Wellong Ding, Jing Wang, and Yanbo Han
A QoS Query Language for User-Centric Web Service Selection (SCC2010-2035) .................................................. XXX
Delnavaz Mobedpour, Chen Ding, and Chi-Hung Chi
Application & Industry Session 3 – Policy Driven Business Process Generation
Session Chair:

Analyst-mediated Contextualization of Regulatory Policies (SCC2010-2036) .................................................... XXX
George Koliadis, Nirmi Desai, Nanjungad Narendra, and Aditya Ghose
Measuring Compliance and Deviations in A Template-Based Service Contract Development Process (SCC2010-2037) .................................................................................................................. XXX
Vijil Chenthamarakshan, Rafah A. Hosn, Shajith Ikbal, Nanda Kambhatla, Debapriyo Majumdar, and Soumitra Sarkar
Towards A Novel Web Services Standard-supported CDN-P2P Loosely-coupled Hybrid and Management Model (SCC2010-2038)
Lu ZhiHui,Jie Wu,WeiMing Fu

Application & Industry Session 4 – Trust Management
Session Chair:

Universal Identity Management Model Based on Anonymous Credentials (SCC2010-2039) ............................................. XXX
Zhang Yang and Junliang Chen
A trust ontology for semantic services (SCC2010-2040) ........................................................................................................ XXX
Wanita Sherchan, Surya Nepal, Jonathon Hunklinger, and Athman Bouguettaya
Constructing an Authentication Token to Access External Services in Service Aggregation (SCC2010-2041) .... XXX
Peishun Wang, Yi Mu, Willy Susilo, and Jun Yan

Application & Industry Session 5 – Semantic Web and Pattern
Session Chair:

Discovering Hierarchical Patterns in Event-Based Systems (SCC2010-2042) ................................................................. XXX
Hannes Obweger, Josef Schiefer, Martin Suntinger, and Peter Kepplinger
Alternative approaches for workflow similarity (SCC2010-2043) ............................................................................................ XXX
Andreas Wombacher and Chen Li
A Knowledge Acquisition Method for Improving Data Quality in Services Engagements (SCC2010-2044) ...... XXX
Mohan N Dani, Tanveer A Faruquie, Rishabh Garg, Govind Kothari, Mukesh K Mohania, K Hima Prasad, L Venkata Subramaniam, and Varsha N Swamy

Application & Industry Session 6 – QoS Enforcement
Session Chair:

Feedback Controlled Quality of Service Enforcement for Service Oriented Architectures (SCC2010-2045) .... XXX
Andreas Lodde, Antoine Schlechter, Pascal Bauler, Nicolas Biri, and Fernand Feltz
Defining Metrics for Loose Coupling Evaluation in Service Composition (SCC2010-2046) ........................................... XXX
Anthony Hock-koon and Mourad Oussalah
Market-Based QoS Control for Voluntary Services (SCC2010-2047) ................................................................................... XXX
Yohei Murakami, Naoki Miyata, and Toru Ishida

Application & Industry Session 7 – Business Process Integration and Management
Session Chair:

Mobile Process Management through Web Services (SCC2010-2048) ................................................................. XXX
Massimiliano de Leoni and Massimo Mecella
Towards Green Business Process Management (SCC2010-2049) ... XXX
Konstantin Hoesch-Klohe, Aditya Ghose, and Lam-Son Le

Process Behavior Analysis: Mechanism to Enable Superior Customer Experience (SCC2010-2050) ... XXX
Karthik Visweswariah, Om Deshmukh, Ashish Verma, Sai Zeng, Chitra Dorai, Maureen Rzasa, and Gary Wright

**Application & Industry Session 8 – Business Driven Services Composition**
**Session Chair:**

A Cost-minimizing Service Composition Selection Algorithm Supporting Time-sensitive Discounts (SCC2010-2051) ... XXX
Xu Lei and Brendan Jennings

A Business Centric End-to-End Monitoring Approach for Service Composites (SCC2010-2052) ... XXX
Geetika T. Lakshmanan, Paul Keyser, Aleksander Słominski, Francisco Curbera, and Rania Khalaf

Smarter Heuristics for Business-Driven Services Selection in Multi-Services P2P Grids (SCC2010-2053) ... XXX
Alvaro Coêlho and Francisco Brasilheiro

**Application & Industry Session 9 – Software Tools for Services Computing**
**Session Chair:**

AHA: Asset Harvester Assistant (SCC2010-2054) ... XXX
Debdoot Mukherjee, Senthil Mani, Vibha Sinha, Rema Ananthanarayanan, Biplov Srivastava, Pankaj Dhoolia, and Prahlad Chowdhury

A Link Obfuscation Service to Detect Webbots (SCC2010-2055) ... XXX
Douglas Brewer, Kang Li, Lakshmish Ramaswamy, and Calton Pu

PRV: An Approach to Process Model Refactoring in Evolving Process-Aware Information Systems (SCC2010-2056) ... XXX
Jin Zeng, Hailong Sun, Xudong Liu, Ting Deng, and Jianing Zou

**Application & Industry Session 10 – Information Systems for Business Processes**
**Session Chair:**

Prospective and Retrospective Provenance Collection in Scientific Workflow Environments (SCC2010-2057) ... XXX
Chunjheeok Lim, Shiyong Lu, Artem Chebotko, and Farshad Fotouhi

Correcting Interaction Mismatches for Business Processes (SCC2010-2058) ... XXX
Gong Shuai, Jinhua Xiong, Zhiyong Liu, and Cheng Zhang

Using Complex Event Processing for Dynamic Business Process Adaptation (SCC2010-2059) ... XXX
Gabriel Hermosillo, Lionel Seinturier, and Duchien Laurence

**Application & Industry Session 11 – Service Platform and Middleware**
**Session Chair:**

Message-based Service Brokering and Dynamic Composition in the SAI Middleware (SCC2010-2060) ... XXX
Federica Paganelli, David Parlanti, and Dino Giuliani

An Assessment of Middleware Platforms for Accessing Remote Services (SCC2010-2061) ... XXX
Young-Woo Kwon, Eli Tilevich, and William Cook

Extensible and general Service-Oriented platform. Experience with the Service Abstract Machine (SCC2010-2062) XXX
Eric Simon and Jacky Estublier
Application & Industry Session 12 – Cloud Services
Session Chair:

Wukong: Toward a Cloud-Oriented File Service for Mobile Devices (SCC2010-2063) ........................................... XXX
Hujian Mao, Nong Xiao, Weisong Shi, and Yutong Lu
X-RIME: Cloud-Based Large Scale Social Network Analysis (SCC2010-2064) ......................................................... XXX
Xue Wei, JuWei Shi, and Bo Yang
Online Self-reconfiguration with Performance Guarantee for Energy-efficient Large-scale Cloud Computing Data Centers (SCC2010-2065) .......................................................................................................................... XXX
Haibo Mi, Huaimin Wang, Gang Yin, Yangfan Zhou, Dianxi Shi, and Lin Yuan

Application & Industry Session 13 – Cloud Computing
Session Chair:

Resource Allocation and SLA Determination for Large Data Processing Services Over Cloud (SCC2010-2066) XXX
Hima Karanam, Tanveer Faruque, L. V. Subramaniam, Mukesh Mohania, and Girish Venkatachaliah
Cross Enterprise Improvements delivered via a Cloud Platform: A game changer for the Consumer Product and Retail Industry (SCC2010-2067) ............................................................................................................................................. XXX
Trieu Chieu, Shubir Kapoor, Ajay Mohindra, and Anees Shaikh
PeopleCloud Service for Enterprise Crowdsourcing (SCC2010-2068) ................................................................. XXX
Mariana Lopez, Maja Vukovic, and Jim Laredo

Application & Industry Session 14 – SOA Management and Coordination
Session Chair:

SOAC: A Conceptual Model for Managing Service-Oriented Authorization (SCC2010-2069) ................................. XXX
Haiyang Sun, Weiliang Zhao, and Jian Yang
Legacy Asset Analysis and Integration in Model-Driven SOA Solution (SCC2010-2070) .................................................... XXX
Nianjun Zhou, Liang-Jie Zhang, Yi-Min Chee, and Lei Chen
Towards a Variability Model for SOA-based Solutions (SCC2010-2071) ................................................................. XXX
Nanjangud C. Narendra, and Karthikeyan Ponnalagu

Application & Industry Session 15 – SOA and Business
Session Chair:

Integrating IT and business service levels: a case study (SCC2010-2072) ................................................................. XXX
Antonella Longo, Gianmario Motta, Thiago Barroero, Giovanni Pignatelli, Mario Bochicchio, Alessandra Raffone, Maurizio Lombardi, and Massimo Manuelli
Process as a Service - Distributed Multi-tenant Policy-based Process Runtime Governance (SCC2010-2073) ... XXX
Mingxue Wang, Kosala Yapa Bandara, and Claus Pahl
An Ontology to support context-aware B2B services (SCC2010-2074)
Tan PS, A.E.S. Goh, S.S.G. Lee

Application & Industry Paper – SCC 2009

Towards a Unified Service Description Language for the Internet of Services: Requirements and First Developments (SCC2010-2075) ................................................................................................................................. XXX
Jorge Cardoso, Alistair Barros, Norman May, and Uwe Kylau
Work-in-Progress Track

Work-in-Progress Session 1 – Implementation of Services Computing
Session Chair:
Formal Passive Testing of Service-Oriented Systems (SCC2010-2076).................................................................................................................. XXX
    Cesar Andres, M. Emilia Cambronero, and Manuel Nuñez
A Service Identification Framework for Legacy System Migration into SOA (SCC2010-2077).................................................. XXX
    Saad Alahmari, Ed Zaluska, and David C. De Roure
Towards a Foundation for Quantitative Service Analysis - An Approach from Business Process Models (SCC2010-2078).................................................................................................................................................. XXX
    Naveen Kulkarni, Deepti Parachuri, and Shashank Trivedi
Self-Aware Quality-of-Service Management in Virtualized Service Infrastructures (SCC2010-2079).......................... XXX
    Samuel Kounov, Fabian Brosig, and Nikolaus Huber

Work-in-Progress Session 2 – Data Management in Services Computing
Session Chair:
Supporting Geosciences Web Services Metadata Management and Discovery (SCC2010-2080)........................................... XXX
    Pearl Brazier, Artem Chebotko, Eric Gonzalez, Andrey Kashlev, and Anthony Piazza
Utility Decomposition and Surplus Redistribution in Composite SLA Negotiation (SCC2010-2081).................................................. XXX
    Jan Richter, Mohan Baruwal Chhetri, Ryszard Kowalczyk, Bao Quoc Vo ,Muhammed Adeel Talib, and Alan Colman
Functionality-Driven Clustering of Web Service Registries (SCC2010-2082)........................................................................... XXX
    Mohamed Sellami, Walid Gaaloul, and Samir Tata

Work-in-Progress Session 3 – Management and Support of Services Computing
Session Chair:
Toward Consistent Combination of Service Selection Methods and Process Adaptation Methods (SCC2010-2083)XXX
    Fuyuki Ishikawa
Task Exception Handling in the VIEW Scientific Workflow System (SCC2010-2084)................................................................. XXX
    Dong Ruan and Shiyong Lu
A Framework for Shrink-Wrapping Security Services (SCC2010-2085).................................................................................. XXX
    Gleneesha Johnson, Ashok Agrawala, and Elodie Billonniere
Enhancing Web Service Registries with Semantics and Context Information (SCC2010-2086)........................................... XXX
    Lu Chen, Yan Li, and Randy Chow

Work-in-Progress Session 4 – Services Delivery and Applications
Session Chair:
Converged Service Delivery: modeling and engineering (SCC2010-2087)............................................................................
    Noëmie simoni, chunyang yin, philippe coude
Toward Consistent Combination of Service Selection Methods and Process Adaptation Methods (SCC2010-2088)....
    Fuyuki Ishikawa
A Framework for Personalized Context-aware Search of Ontology-based Tagged Data (SCC2010-2089)....................
    Knarig Arabshian
Development of a Novel Software Architecture for Active E-Commerce Applications based on Fusion of Mobile Agent, Web Services and BPM Technologies (SCC2010-2090)..........................................................................................................................
