

2020 IEEE Second Workshop on Machine Learning on Edge in Sensor Systems (SenSys- ML)

SenSys-ML 2020

Table of Contents

Welcome Message from SenSys-ML'20 Chairs	vi
Committees	vii
 SenSys-ML 2020 Technical Papers	
Multiple-Image Super-Resolution for Networked Extremely Low-Resolution Thermal Sensor Array	1
<i>Chi-Sheng Shih (National Taiwan University), Yao-Ting Wang (National Taiwan University), and Jyun-Jhe Chou (National Taiwan University)</i>	
Latent Representation Learning and Manipulation for Privacy-Preserving Sensor Data Analytics	7
<i>Omid Hajihassani (University of Alberta), Omid Ardakanian (University of Alberta), and Hamzeh Khazaei (York University, Toronto)</i>	
Class-Dependent Pruning of Deep Neural Networks	13
<i>Rahim Entezari (Graz University of Technology) and Olga Saukh (Graz University of Technology)</i>	
Tiny Eats: Eating Detection on a Microcontroller	19
<i>Maria T. Nyamukuru (Dartmouth College) and Kofi M. Odame (Dartmouth College)</i>	
 Author Index	 25
