IEEE John Vincent Atanasoff Symposium on Modern Computing at IEEE SERVICES 2023

<https://conferences.computer.org/services/2023/jva.html>
<https://conferences.computer.org/services/2023>

The IEEE JVA Symposium on Modern Computing is dedicated to the inventor of electronic digital computing – John Vincent Atanasoff. It will serve as a tribute to this pioneer’s revolutionary accomplishments and as a celebration of Atanasoff’s 120th birthday. The Symposium will bring together scientists, researchers, and professionals from different countries featuring some of the leading voices in key research and industry areas for advancing the future of computing across the globe. The development of information technologies revolutionized the contemporary society and has been influencing greatly its economic and social progress. Nowadays, the rapid emergence of innovative hardware and software products in areas such as artificial intelligence, application specific IT infrastructures, supercomputing and Internet-of-things are emblematic future directions for modern computing, key topics in the symposium.

IOWA STATE UNIVERSITY

IMPORTANT DATES FOR INVITED IEEE JVA SYMPOSIUM PAPERS

January 20, 2023: EasyChair opens for draft submissions
April 26, 2023: EasyChair closes for submissions
May 15, 2023: Acceptance notifications
July 5-6, 2023: IEEE JVA Symposium on Modern Computing

STEERING COMMITTEE

John V. Atanasoff II, Standing Chairman, USA
Gordon Bell, Microsoft Research, USA
Kiril Boyanov, Bulgarian Academy of Sciences, Bulgaria
Carl K. Chang, Iowa State University, USA
Vladimir Getov, University of Westminster, UK
John Gustafson, VQ Research and Arizona State University, USA
Adolfy Hoisie, Brookhaven National Laboratory, USA
Hironori Kasahara, Waseda University, Japan
Dejan Milojicic, Hewlett Packard Labs, USA
Hradesh Rajan, Iowa State University, USA

OPERATIONS COMMITTEE

General Chair: Vladimir Getov, University of Westminster, UK
Program Chair: Hradesh Rajan, Iowa State University, USA
Track Chairs: Georgi Gaydadjiev, TU Delft
Lubomir Hadjiyski, University of Michigan, USA
Zlatko Minev, IBM Quantum, USA
Publicity Chairs: Daniela Dimitrova, Iowa State University, USA
Vasil Georgiev, Sofia University “St. Kliment Ohridski,” Bulgaria
Luanzheng “Lenny” Guo, Pacific Northwest National Laboratory, USA

CONTACT

For any questions regarding submission of invited papers, please email Vladimir Getov at V.S.Getov@westminster.
